## Mentor-Mentee Manual for Polba Mahavidyalaya

### 1. Introduction

#### Purpose of the Manual:

This manual serves as a guide for both mentors and mentees in fostering a productive and supportive mentoring relationship. It outlines the roles, responsibilities, and expectations of both parties, ensuring that the mentoring process is beneficial for the academic, personal, and professional growth of the students.

#### Scope:

This manual applies to all undergraduate students of Polba Mahavidyalaya in both the Science and Arts streams.

### 2. Objectives of the Mentor-Mentee Program

- **Academic Support:** Provide guidance to students in their academic pursuits, helping them to achieve their educational goals.
- **Personal Development:** Support the personal growth of students, including the development of soft skills, confidence, and ethical values.
- **Career Guidance:** Assist students in exploring career options, preparing for job placements, or pursuing higher studies.
- **Emotional Well-being:** Offer emotional support and guidance, helping students navigate challenges and stressors.

### 3. Roles and Responsibilities

#### Mentors:

- **Guidance:** Offer advice on academic courses, research projects, and career planning.
- **Regular Meetings:** Conduct regular meetings with mentees to discuss progress and address concerns.
- **Support System:** Be a reliable source of support, both academically and personally.
- **Resource Sharing:** Provide resources such as study materials, reference books, and career information.

- **Feedback:** Offer constructive feedback and help mentees set realistic goals.

## Mentees:

- **Engagement:** Actively participate in meetings and discussions with the mentor.
- **Goal Setting:** Work with the mentor to set and achieve academic and personal goals.
- **Openness:** Communicate openly about challenges, aspirations, and feedback.
- **Respect:** Respect the mentor's time, guidance, and expertise.
- **Follow-up:** Implement the advice and strategies suggested by the mentor and update them on the progress.

## 4. Structure of the Mentor-Mentee Program

### Assignment of Mentors:

- Each student will be assigned a mentor from their respective department at the beginning of the academic year.
- Mentors will be faculty members experienced in guiding students in both Science and Arts streams.

### Documentation:

- Separate file will be maintained by mentors and the respective departments to record the mentoring report which primarily includes the discussion points, and action plans.

## 5. Code of Conduct

- **Confidentiality:** All personal and academic discussions between the mentor and mentee must be kept confidential unless it poses a risk to the mentee or others.
- **Professionalism:** Both mentors and mentees should maintain a professional and respectful relationship.
- **Commitment:** Both parties should be committed to the mentoring process, ensuring regular and meaningful interactions.

## Circular Regarding Mentor and Mentee Allocation

For the Academic Year 2018-2019

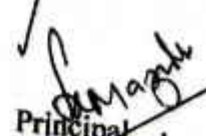

Directions are issued herewith regarding the mentoring system for the academic year 2018-19. Each faculty (mentor) is allocated a group of students (mentee) to take care of them depending upon the students' strength. The mentors are supposed to take the responsibility of their allocated mentees to provide them counselling regarding psychological problems, career moves, disciplinary issues and financial handicaps, support them for any kind of difficulty in their curriculum, make provision of remedial coaching for them and support them as and when required, both within and outside classrooms.

All the mentors should collect the Student Mentorship Programme (SMP) form filled by the students, provide written suggestions to the mentees in the form itself and distribute them back to the respective students, so that they can follow the suggestions to the greatest extent.

### **Roles and responsibilities of the mentors:**

- Mentors meet their mentees at least twice a month.
- Mentors monitor their mentees for their academic as well as holistic development.
- They give instruction to the mentees for their academic as well as holistic development.
- Conduct parents' / guardians' meeting (s) and /or meet personally, if necessary, to discuss issues relating to academic amelioration, congenial behavioral pattern, development of personal attitude(s), belief(s), etc.
- Guide the mentees towards inclusive development of their career in right perspective.
- Maintain detailed progressive report/record of each of the students along with their contact details.
- Find out hidden/latent talent of the mentees in various aspects of academic, co-curricular, extra-curricular and extra mural activities so that they can be promoted to pursue various activities in the concerned area(s) for their holistic development.

The Mentor-mentee list is attached herewith for perusal.

## Circular Regarding Mentor and Mentee Allocation

**For the Academic Year 2019-2020**

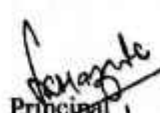

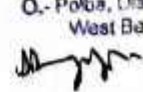

Directions are issued herewith regarding the mentoring system for the academic year 2019-20. Each faculty (mentor) is allocated a group of students (mentee) to take care of them depending upon the students' strength. The mentors are supposed to take the responsibility of their allocated mentees to provide them counselling regarding psychological problems, career moves, disciplinary issues and financial handicaps, support them for any kind of difficulty in their curriculum, make provision of remedial coaching for them and support them as and when required, both within and outside classrooms.

All the mentors should collect the Student Mentorship Programme (SMP) form filled by the students, provide written suggestions to the mentees in the form itself and distribute them back to the respective students, so that they can follow the suggestions to the greatest extent.

### **Roles and responsibilities of the mentors:**

- Mentors meet their mentees at least twice a month.
- Mentors monitor their mentees for their academic as well as holistic development.
- They give instruction to the mentees for their academic as well as holistic development.
- Conduct parents' / guardians' meeting (s) and /or meet personally, if necessary, to discuss issues relating to academic amelioration, congenial behavioral patten, development of personal attitude(s), belief(s), etc.
- Guide the mentees towards inclusive development of their career in right perspective.
- Maintain detailed progressive report/record of each of the students along with their contact details.
- Find out hidden/latent talent of the mentees in various aspects of academic, co-curricular, extra-curricular and extra mural activities so that they can be promoted to pursue various activities in the concerned area(s) for their holistic development.

The Mentor-mentee list is attached herewith for perusal.

## Circular Regarding Mentor and Mentee Allocation

**For the Academic Year 2020-2021**

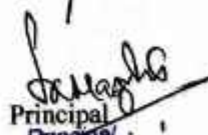

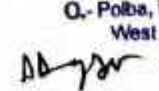

Directions are issued herewith regarding the mentoring system for the academic year 2020-21. Each faculty (mentor) is allocated a group of students (mentee) to take care of them depending upon the students' strength. The mentors are supposed to take the responsibility of their allocated mentees to provide them counselling regarding psychological problems, career moves, disciplinary issues and financial handicaps, support them for any kind of difficulty in their curriculum, make provision of remedial coaching for them and support them as and when required, both within and outside classrooms.

All the mentors should collect the Student Mentorship Programme (SMP) form filled by the students, provide written suggestions to the mentees in the form itself and distribute them back to the respective students, so that they can follow the suggestions to the greatest extent.

### **Roles and responsibilities of the mentors:**

- Mentors meet their mentees at least twice a month.
- Mentors monitor their mentees for their academic as well as holistic development.
- They give instruction to the mentees for their academic as well as holistic development.
- Conduct parents' / guardians' meeting (s) and /or meet personally, if necessary, to discuss issues relating to academic amelioration, congenial behavioral pattern, development of personal attitude(s), belief(s), etc.
- Guide the mentees towards inclusive development of their career in right perspective.
- Maintain detailed progressive report/record of each of the students along with their contact details.
- Find out hidden/latent talent of the mentees in various aspects of academic, co-curricular, extra-curricular and extra mural activities so that they can be promoted to pursue various activities in the concerned area(s) for their holistic development.

The Mentor-mentee list is attached herewith for perusal.

## Circular Regarding Mentor and Mentee Allocation

**For the Academic Year 2021-2022**

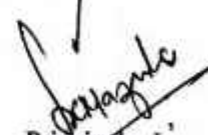

Directions are issued herewith regarding the mentoring system for the academic year 2021-22. Each faculty (mentor) is allocated a group of students (mentee) to take care of them depending upon the students' strength. The mentors are supposed to take the responsibility of their allocated mentees to provide them counselling regarding psychological problems, career moves, disciplinary issues and financial handicaps, support them for any kind of difficulty in their curriculum, make provision of remedial coaching for them and support them as and when required, both within and outside classrooms.

All the mentors should collect the Student Mentorship Programme (SMP) form filled by the students, provide written suggestions to the mentees in the form itself and distribute them back to the respective students, so that they can follow the suggestions to the greatest extent.

### **Roles and responsibilities of the mentors:**

- Mentors meet their mentees at least twice a month.
- Mentors monitor their mentees for their academic as well as holistic development.
- They give instruction to the mentees for their academic as well as holistic development.
- Conduct parents' / guardians' meeting (s) and/or meet personally, if necessary, to discuss issues relating to academic amelioration, congenial behavioral pattern, development of personal attitude(s), belief(s), etc.
- Guide the mentees towards inclusive development of their career in right perspective.
- Maintain detailed progressive report/record of each of the students along with their contact details.
- Find out hidden/latent talent of the mentees in various aspects of academic, co-curricular, extra-curricular and extra mural activities so that they can be promoted to pursue various activities in the concerned area(s) for their holistic development.

The Mentor-mentee list is attached herewith for perusal.

## Circular Regarding Mentor and Mentee Allocation

**For the Academic Year 2022-2023**

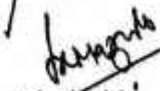

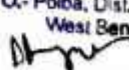

Directions are issued herewith regarding the mentoring system for the academic year 2022-23. Each faculty (mentor) is allocated a group of students (mentee) to take care of them depending upon the students' strength. The mentors are supposed to take the responsibility of their allocated mentees to provide them counselling regarding psychological problems, career moves, disciplinary issues and financial handicaps, support them for any kind of difficulty in their curriculum, make provision of remedial coaching for them and support them as and when required, both within and outside classrooms.

All the mentors should collect the Student Mentorship Programme (SMP) form filled by the students, provide written suggestions to the mentees in the form itself and distribute them back to the respective students, so that they can follow the suggestions to the greatest extent.

### **Roles and responsibilities of the mentors:**

- Mentors meet their mentees at least twice a month.
- Mentors monitor their mentees for their academic as well as holistic development.
- They give instruction to the mentees for their academic as well as holistic development.
- Conduct parents' / guardians' meeting (s) and /or meet personally, if necessary, to discuss issues relating to academic amelioration, congenial behavioral pattern, development of personal attitude(s), belief(s), etc.
- Guide the mentees towards inclusive development of their career in right perspective.
- Maintain detailed progressive report/record of each of the students along with their contact details.
- Find out hidden/latent talent of the mentees in various aspects of academic, co-curricular, extra-curricular and extra mural activities so that they can be promoted to pursue various activities in the concerned area(s) for their holistic development.

The Mentor-mentee list is attached herewith for perusal.
